

## Component Length Rack Mounts

Rack mount brackets allow easy mounting of professional studio-style components designed to the 19"-wide EIA standard.

**Finish:** Black

**Compatibility:** Works with all Chameleon cabinets, which are 17.75" deep.

Please note that doors can be used with component size brackets, placed away from the hinges. Allow for 1.5" clearance for each hinge.

**Weight Capacity:** Each set of mounts holds up to 100 lbs.

**Spacing:** Universal holes are spaced on consecutive intervals of 5/8" and 1/2" allowing for mounting of equipment with attachment holes either wide or universally spaced.

**Includes:** two, black rails per set with universal mounting hardware.

	Max U's (Component Space)		Max Cabinet Interior Depth		Max Component Face Depth
	Without Door	With Door	Without Door	With Door	Distance Between Mounting Bracket and Door
Synergy 12" High Unit	4	N/A	18.5"	17.5"	.75"
Synergy 21" High Unit	10	5	18.5"	17.5"	.75"
Synergy 31" High Unit	15	10	18.5"	17.5"	.75"
Synergy 41" High Unit	21	17	18.5"	17.5"	.75"
