*“When it comes to entertainment seating for your home and family, we only craft the highest-possible quality and build with the finest construction and materials. As such, we stand by every single piece of our premium seating today, tomorrow, and for your lifetime.”*

*- Salvatore Carrabba, Founder*

## Superior Comfort and Construction.

Entertainment seating is one of the most critical elements of any media room or theater, because it's where people often sit for hours watching movies, sports or gaming. So, seating must be built with an understanding of what it takes for complete comfort and superior construction.

While we all like “cushy”, to sit for hours, your whole body must also be well supported. And, recliners get used repeatedly, which demands particularly strong construction. These are just some reasons why our seats are made with the highest degree of expertise and strength. We have developed a uniquely robust frame and reclining mechanisms. And, all our signature seating provides unparalleled head, lumbar, leg and foot support. We use the latest in high resiliency foam for lasting comfort and support, long-life coverings such as premium leather, and pay attention to each detail for maximum durability.

At Salamander Designs, we devote our hearts and talents to sculpting every piece of beautiful furniture with hand-crafted detail in Bloomfield Connecticut. All seating we produce is personalized to integrate with your life, and last for life. Crafted just for you, we also build with sustainability at the forefront of our minds

Each Salamander Designs seat is handcrafted with lifelong comfort and is backed by our Lifetime Warranty. That's a commitment you can count on. We thank you for configuring and purchasing Salamander Designs seating.
