Active Cooling - Standard

Our Active Cooling System, designed to prevent heat buildup inside the cabinets, employs a remote thermostat and dual maintenance-free fans. When the thermostat is placed atop a component, fans provide precise cooling. The system replaces a standard rear cabinet panel.

Finish: Black

Fans: (2) 120 mm

Air flow: 130 CFM

Noise level: 19 dBA

Airflow direction: Exhaust

Power consumption: 2.9 W max

Thermistor: Remote with 20" lead

Operation: Begins at approx 80° F; max speed reached at approx 95° F
