

FOR IMMEDIATE RELEASE

Salamander Designs Introduces Zurich Cabinets

(Bloomfield, CT) January 3, 2017 – Salamander Designs, Ltd., a leader in premium quality residential and commercial audio/video furniture solutions made in the USA for over 20 years, announces the introduction of the new custom cabinet line, Zurich. This line is an addition to the Chameleon Collection. That collection encompasses A/V cabinets that combine art and technology in sophisticated designs that will fit in almost any decor.

Inspired by the European city, Zurich, Switzerland, a city famous for its stunning beauty, amazing views and tantalizing gourmet treats, this earth inspired furniture delivers texture and grace.

As furniture trends for the home move to earthier tones and deep geometric patterns, Salamander with its visionary design stays abreast of this trend with this latest model.

This opium brown finish on European Larch veneer reflects authentic grain complemented by black glass top and sides. The textured horizontal pattern lends itself to railroad track nostalgia once and still an integral connection for all European travel. The durable chassis and adaptable bays provide a “solutions” approach for all your current and emerging AV storage needs.

As with all Salamander Designs, Chameleon cabinets are available in over twenty-four configurations ranging from single bay cabinets to quad width credenzas. Cabinets can be configured to suit any need, such as an integrated center channel loudspeaker for visually unobtrusive home theater applications. Zurich is also available in all the newest Low Profile Wall Cabinets. Jump on board with Zurich. Starting at \$999 MSRP.
